PLANNED SEMI-ANNUAL MAINTENANCE

All A.B. May Priority Members receive two maintenance appointments each year. Our expert technicians will perform a thorough inspection of your entire system, clean the unit, and check that everything is working properly. Because we check your entire system, whenever the weather demands a sudden need for heating or cooling, you can feel confident your system will function properly. These appointments are pre-scheduled twice a year for your convenience. It's also easy to reschedule by phone or online.

Why is maintenance for your heating and cooling system important?

Safety- Systems that are operating improperly could be harmful to you and your family. We check for leaks and CO emissions at every maintenance appointment.

Efficiency- Cleaning, lubrication and minor adjustments can significantly reduce your energy costs.

Longevity- Well maintained systems do not have to work as hard and last longer.

Fewer Repairs- Identify problems before they become potentially costly repairs.

* See more details about Service Time on p. 5.

Your Technicians are ALWAYS very polite, professional, and knowledgeable. I have never had an issue with any of your technicians. Dealing with your technicians is always one of my most pleasant experiences. They are ALL above reproach, and just another major reason why I keep my home warranty.
